From shortlist to sample

Use the accompanying editable Selection & Quote workbook.

01 Share your brief

School name, destination and age / height range.

Required uniform policy, school colours and delivery date.

02 Build your shortlist

Quote the individual style codes shown in this catalogue.

Specify colour, size and quantity on a separate row for each variant.

03 Confirm the product

Agree fabric composition, weight, construction and care instructions.

Confirm body / garment measurements in cm and inches.

Approve logo artwork, placement, colour references and sample.

04 Confirm commercial terms

Request MOQ by style and colour, unit prices and currency.

Confirm sample costs, production lead time and delivery terms.

Agree replenishment arrangements before placing the order.

RV codes identify designs needing construction confirmation before quoting.
The internal register maps earlier codes to the codes in this edition.
Categories describe garment form. Confirm fabric and intended use separately.
Images are design concepts. Colours, accessories and performance are unverified.

Plan your schoolwear order

Minimum order

100 pieces per style, across 3-4 sizes. State quantities in pieces or sets; for sets, list each garment included.

Production timing

Production is completed within 20-25 days after receipt of the deposit. Samples, specifications and formal order terms must be confirmed before production. Shipping time is separate.

What to include in your enquiry

- Style code(s) and the garments required from each model look.
- Estimated quantities by style, colour and size.
- Fabric requirements, school colours, logo artwork and placement.
- Delivery destination, target delivery date and packaging requirements.

Send the information you already have. Remaining details can be discussed with our team.

Confirm before ordering

Confirm the sample, garment measurements, materials, branding and final quotation. Sample approval does not automatically confirm pricing, delivery terms or a formal order.

Illustrations and specifications

This catalogue includes design renderings and AI-generated model looks. ML codes identify coordinated looks, not individual garment SKUs. Fabric specifications confirmed for website products do not automatically apply to every catalogue design.
